

Design Public Information Meeting

Widen Florida Turnpike (SR 91) from Neptune Road to North of Osceola Parkway

Osceola County, FL

Financial Project Identification Numbers: 436194-1 and 436194-3

Project Need

Improve Travel Times & Emergency Response

- This 4-lane Turnpike segment between the existing 8-lane section north of Osceola Pkwy. and the proposed 8-lane section south of Neptune Rd. creates a bottleneck decreasing travel time and emergency response time.

Accommodate Transportation Demand

- Increased traffic demand leads to low levels of service
- Lower operating conditions will increase travel time and disrupt delivery of goods

Enhance Economic Development

- Population growth fuels development
- Increase in employment opportunities attract new residents
