

## Forecasted Traffic Conditions

## Forecasted Traffic Conditions: 2050

By 2050, congestion on many portions of the existing roadway network will be consistently heavy if nothing is done.

| Congestion<br>Level | Level of Service |
|---------------------|------------------|
| Light               | D                |
| Moderate            | Ε                |
| Heavy               |                  |
